Gulf Coast Medical Center Celebrating 30 Years of Medical Service to the Community

Port Richey, Fla., September 25, 2012 - Gulf Coast Medical Center, a leading provider of medical and diagnostic services, is celebrating 30 years since the inception of the family-owned business. The multifaceted medical center has expanded significantly throughout the past three decades with two locations serving West Pasco and one in Hernando. In 1982, Dr. Steven Strobbe banded together with a group of physicians and opened the first walk-in clinic in New Port Richey. This new “walk-in” concept was dedicated to the care and treatment of patients. It remains today the premier outpatient medical establishment on the US 19 corridor in West Pasco.

Spearheaded by co-founder Edward Capone, the medical center also took on the mission of providing medical services by appointment, hospital and nursing home services. It has also endeavored to create an environment to train new physicians and paraprofessionals.

According to Dr. Steven Strobbe regarding Gulf Coast Medical Center’s many activities, none was more important than increasing awareness and redefining outpatient care. To this end, the organization participated and has been awarded recognition and accolades that go above and beyond the normal standard for excellence and patient care.

With two locations in Port Richey, Fla. and one in Spring Hill, Fla., privately-owned Gulf Coast Medical Center is a leader in out-patient multi-specialty medical services. Serving the West Pasco area since 1982, The Joint Commission, ACR and COLA accredited and NCQA recognized facilities combine comfort with technology to offer patients an exceptional medical experience.
